DETAILED ACTION

Priority

This application claims benefit for foreign priority under 35 U.S.C. § 119(a)-(d) to Republic of Korea 2002-0071992 11/19/2002, is acknowledged.

Status of Claims

Claims 1-9 are currently pending in the application.

Receipt is acknowledged of amendment / response filed on April 11, 2006 and that has been entered.

Information Disclosure Statement

Receipt is acknowledged of Information Disclosure Statement (IDS), filed on 05/18/2004, which has been entered in the file.

Response to Election/Restriction

In response to the restriction requirement, Applicants have elected Group II, which includes claims 1-9, drawn to a process for preparing of a chemical formula [2], is acknowledged. Because Applicants did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election **without** traverse (MPEP § 818.03(a)). Therefore, the requirement for restriction in is still deemed proper.

Applicants preserve their right to file a divisional on the non-elected subject matter.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1626

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-9 are rejected under 35 U.S.C. § 102(a) as being anticipated by Rauchschalbe *et al* (US 6,369,239). Applicant claims process for preparing of 3,4-dialkoxythiophene under specific set of reaction conditions. Rauchschalbe *et al* also disclose the process for the preparation of dialkylthiophenes and dialkoxythiophene derivatives and at least one of the preparation anticipates the instantly claimed invention wherein the reaction comprises decarboxylating the formula (IV) in a polar solvent having boiling temperature range of 170 to 260°C and isolating the final product of formula (II) by distillation [Please see column 2, lines 10-60, column 3, lines 22-60 and also column 6, claim 1] which reads on the instantly claimed process.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claim in the subject matter, which the applicant regards as his invention.

Claims 5 and 6 are rejected under 35 U.S.C. § 112 second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The recitation of “the copper catalyst” (recited in line 1 of claim 5, page 4), and “the copper salt” (claim 6, line1, page 4) render the claims indefinite because the limitations where the lack of antecedent basis makes the scope of the claims indeterminate. There is insufficient antecedent basis for these limitations in the claims. Appropriate correction is required in order to overcome the rejection or to amend the claims with in the context and scope of the claims.
